Suggested Interview Questions On Topic

- A) Your recent best-selling book *“The Return Of Planet-X,”* explains the extreme dangers that could be posed by “Planet-X” (Wormwood), beginning in 2009. Specifically what is “Planet-X” and what is your theory about its return and its solar system origins?
A-1 Traveling back into time – what were the dynamics that inspired you to write this book and how long have you been researching the information that you've presented.

- C) If “Planet-X” has existed for thousands (possibly millions or billions) of years, why will it not be until 2009 that it returns to our solar system becoming dangerous to the inhabitants of planet Earth once again? C-1 And when do you believe was the last time in history that “X” came back to visit Planet Earth?
- D) You write that the next “close-pass” of “Planet-X” could be in the next 4-5 months going into fall of this year? What do you believe will be “X’s” initial effects on Earth at that time? And then what will be its subsequent effects after “X’s” second passing in 2012?
- E) Assuming that our planet recovers from the first destructive phase of “Planet-X’s” passing – what will happen when “X” comes racing back here again in 2012 – approaching/passing by or possibly even passing through our solar system?

- G) What are the newest developments with your Russian colleagues and Dr. Marina Popovich in regards to your co-efforts to launch “Project Blue Light,” which is the modern-day civilian US/Russian re-creation of the old Air Force “Project Book Book” operations from 1947 to early 1982?
- H) What do you think will be the government's response to your efforts once “Project Blue Light” is fully up and running? Do you think they will try to interfere with your activities or those of Marina and her Russian counter-parts?
- I) Do you think that the general press and media (including radio/TV/newspapers) are now ready to take seriously what appears to be a growing UFO/ET appeal by the general public and the fact of there being more UFO reports/sighting/home videos/still pictures captured than ever before?
- J) Assuming that your Planet-X hypothesis is correct and “Planet-X” first arrives in 2009 causing Earth a series of escalating global natural disasters (above the 10+ range) – why do you strongly assert in your book that you believe there’s a well-organized, international global conspiracy plan among the United Nations members and its key officials to play down the growing Planet-X phenomenon sweeping the planet?

K) And going a step further --would you say that politically, diplomatically, religiously and scientifically --certain unofficial (sub-rosa) global government efforts are being made to deny or at best cover-up the revealing of this critical information at the Planet-X time frame draws ever nearer?

L) Are there many mainstream media, bloggers or other radio/TV journalists talking about the imminent approach of "*Planet-X*?" Or is this phenomenon still off the mainstream media radar screen? And why do you think this is the attitude of the news media/political and religious institutions and can anything positive be done to change their attitude or ideas about "X"?

M) We all hope that "*Planet-X*" fails to arrive and that your detailed research, book writing and public speaking chores (though well-intentioned) are all for naught! --Therefore, are there any positive results within your "*Planet-X*" message that you could share with us should your "X" research and writing be off target for 2009 and 2012??

N) In Chapter 10 of your book, you offer a "survivor's manual" for those hoping to minimize the devastation to themselves, their families, neighbors and the world at large. What are some of your key suggestions and when should the general public take heed?

O) Based upon your personal experiences as a UFO/ET contactee yourself, what were the dynamics of your Canadian encounter at 11 years old --and how did those Fourth-Racer ETs relate to you eventually becoming a UFO/ET researcher/writer and advocate of the modern-day UFO movement and for the future writing of... *The Return Of Planet-X*?

P) As individuals --what can each of us do to help prepare ourselves to survive the aftermath of a natural disaster -- things like earthquakes, hurricanes, tornadoes, wildfires, uncontrollable flooding and the general mood of public disorder that unusually results after such catastrophic events occur.

Q) I understand that your book is beginning to attract attention from several major government agencies, prominent individuals and several top-tier think-tank institutes. Would you elaborate on who these people and institutions are and why you think they are requesting copies of your book?

Section two:

A) What is "Planet-X's" relationship to the Biblical "Wormwood" reference -- (Revelation Chap. 8, Vrs.11) Quoting: "*And the name of the star was Wormwood.*" - END - And why is that important for us to understand in the cosmic scheme of ancient biblical prophecy?

B) What can you tell us about the new book you and author Gilbert Ericksen are rushing to complete by summer's end?

C). I understand that a copy of your book 'in progress' was hand delivered to the Vatican and Pope Benedict the 16th in late October, 2008. Tell us about how you got the book to his Holiness and have you received any feed-back or communications from the Vatican since then?

D) What has been the reaction of various religious groups/pastors/church members as you researched the contents of "The Millennium Prophecy" ?

Marina Popovich, the famous retired Soviet Air Force jet fighter test pilot and head consultant of the Russians’ secret UFO Investigations Committee --along with her former husband, General Pavel Popovich?
