FOR IMMEDIATE RELEASE:

The exciting announcement of the formation and launching of “PROJECT BLUE LIGHT—2009” the bold re-creation/continuation of the Government’s infamous “PROJECT BLUE BOOK” FILES—the 60-year old official Air Force/media cover-up/debunking program originally designed to investigate the UFO/ET phenomenon June, 1947—then officially closed in April, 1969.

HORN LAKE, MS, January 5, 2009: Dr. Jaysen Q. Rand, author of *The Return Of Planet-X*, is currently leading this dynamic global movement to organize/staff/launch their all-civilian professional UFO/ET investigative/research/documentation group headquartered here in the United States.

“*Project Blue Light*” stands ready to unleash a powerful new arsenal in the UFO wars by establishing an unprecedented worldwide alliance of hundreds of seasoned experts, eyewitnesses and reporters who owe their allegiance not to any particular government, but to the peoples of the world! They promise to take no prisoners and give no quarter in their all-out campaign to expose the truth about the ongoing UFO/ET phenomenon—once and for all. Latest US opinion polls indicate 68% of Americans believe in UFOs/ETs.

“*Project Blue Light*” will spearhead this history-making effort as they challenge the clandestine program and past drama of the U.S. Government’s now failed 60-year old official Air Force/media cover-up agenda. “*Project Blue Light*” investigates the mythos and mysteries surrounding the reality/actuality of UFOs and the ever-expanding global extraterrestrial hypothesis begun in 1947. After 60-years...the UFO/ET government whitewash is finally over! And, just like in the “*X-Files*,” —*The truth is out there!!*

From an excerpt in Brad Steiger’s classic 1976 tome, *Project Blue Book (A Major Document)*, quoting his *Introduction: An Exercise in Charting a Phenomenon* — page 18/para. two:

“The history of Project Blue Book alone has shown that the UFO phenomena is mainly that of a public relations problem. The fringe of believers in extraterrestrial visitation continues to grow. UFO hobby clubs are a constant critic of Air Force policies—the majority of these clubs profess to be studying the phenomena scientifically.” — END —

Those very words written by Steiger, a noted author/lecturer/UFO-ET expert and consultant, appear just as relevant and fresh today—32 years later as the ongoing unofficial UFO government cover-up continues unabated. The latest debunking of current ‘extraterrestrial visitation events’ is alive and well following the recent major UFO flap over Stephenville, Texas, on Monday, January 14th 2008.

Quoting an AP dispatch which appeared in *CNN.com*’s Internet Edition under that same date:

“In this farming community where nightfall usually brings clear, starry skies, residents are abuzz over reported sightings of what many believe is a UFO.” —MORE—

As expected, the first official government pronouncements and denials came almost from the beginning of these public UFO reports. Official government statements included media denials that no military-type aircraft were 'near' or 'in the immediate vicinity' of the reported UFO sightings and that no civilian airliners were reported in the area either. That was it, plain and simple, a flat-out denial! Their denials immediately suggested that all these UFO reports appeared suspicious but true!

Yet, just two days later—the AF carefully retracted their denials sheepishly stating: “*Military aircraft were seen operating in the area.*” Quoting that same AP dispatch of 01/14/08 which then appeared worldwide for distribution:

“*While federal officials say there’s a logical explanation, locals swear that it was larger, quieter, faster and lower to the ground than any airplane. They also said the object’s lights changed configuration, unlike those of a plane. People in several towns who reported seeing it over several weeks have offered similar descriptions of the same subject.*” — END —

As “*Project Blue Light*” begins to assemble its professional staff and teams of investigative UFO/ET researchers across the country and globe—UFO reports and stories such as the Stephenville sightings, will be considered upon their specific merit. “*Project Blue Light*” will also seek affiliations with other credible UFO/ET study groups and research organizations such as MUFON (Mutual UFO Network) and we are presently in the process of asking *The Arlington Institute* (Arlington, VA), considered to be one of our country’s preeminent “think tank” organizations, to consider working with us to share in, document and report “*Project Blue Light’s*” findings, evidence and conclusions—as we race towards 2012 and what the mystical Mayan prophecies describe as “*The Cosmic End-Of-Time.*”

For some unknown and truly arcane reason, the *Mayan Celestial Calendar Codex* inexplicably ends on 21 December 2012. According to ancient Mayan cosmology—‘time’ as we know it on planet Earth will reach its climax on that date. —*And no one seems to know why!!* As reported in our book, *The Return Of Planet-X*, and written across the scroll of time and space, we believe *Planet-X (Wormwood)*, will return to our solar system in 2009 and again in 2012. We also believe that planet Earth will soon be experiencing an escalating calendar of UFO sightings/landings and new ET visitations. The weird O’Hare Field UFO incident (Nov. ’07) and then the arcane Stephenville, TX, mystery (January ’08), signals the start of our book’s premise anticipating the ongoing rise in UFO/ET activity here in the states/across the globe—up close/at large/in real-time for the masses. We found 2008 saw a dramatic rise in UFO sighting events...

Humans are finally waking up to the 21st century reality of the UFO/ET phenomena. Over several past years, numerous books/magazine articles/radio/television shows were certainly captivating the public’s attention—all dealing with this paramount subject on a much more frequent basis. As of last January, *The History Channel* began airing its brand new prime-time UFO series: *The UFO Hunters*, and the public is really tuning in—in all age groups/ethnicities/life styles—according to the latest Nielson TV ratings. The good news is that the ‘Stephenville’ and ‘O’Hare’ UFO reports made major TV network news worldwide.

Major cities offer excellent support groups with frequent lectures on the contactee/abductee phenomenon—with folks from all walks of life beginning to openly discuss their ET experiences regarding apparent ‘genetic manipulation’ at the hands of these other-world beings. It should also be noted that this dynamic within our writing research, soon proved to be much more involved/interesting/daunting than we ever imagined. We suggest that the public investigates this UFO/ET phenomenon with an open mind—linked to our research concept that the ‘larger cosmic picture’ of our ongoing *Planet-X* saga may well involve a major connection to the UFO/ET hypothesis offering us help as the mystical year ‘2012’ soon arrives.

There are literally thousands of books and magazines articles written on the subject available in most bookstores, libraries and the Internet. We firmly believe that UFOs/ETs are intricately connected to our *Planet-X* drama and that this aspect of Earthian reality into 2009-2012 cannot be ignored much longer.

Join with us in making “*Project Blue Light*” a big success. The official UFO/ET whitewash is over! For information on *Project Blue Light* go to: incontact@projectbluebook.net To reach Dr. Jaysen Q. Rand: drjrand@projectbluelight.net —and to send your personal/related UFO/ET information/pictures/videos/evidence—please write: *Project Blue Light*, at P.O. Box 141, Horn Lake, MS 38637
